

Bank Broke; Needs Blood

"The Cal Poly Health Center will hold a blood bank drawing in the Temporary College Union Thursday, May 20, from 9 A.M. to 2 P.M.," announces Dr. Earl D. Lovett, Head Medical Officer.

According to Dr. Lovett, the Health Center now has only 23 pints of blood on account with the Tri-County Blood Bank, when a minimum of more than 100 should be kept at all times.

"Letters are now being sent to all club presidents urging group participation in this activity," says Dan J. Lawson, Associate Dean of Student Activities.

"Students over 21, who will be able to give blood, can sign up in the ASB office," says Lawson, "while those under 21 can get permission slips to send home to parents."

"There will be no more than 8 students signed up for every 20 minutes, so that little or no waiting will be involved," says Dr. Lovett.

According to Dr. Lovett, in the spring of 1952, Cal Poly, during a three-day blood bank drawing, gave 1400 pints of blood. The drawing, sponsored by the Cal Poly Faculty Club, was to get blood for the Korean War effort. This drawing made Cal Poly national blood bank champion for a short while because of the number of pints of blood given in relation to the size of the school.

Blue Key To Initiate Tomorrow Evening

Nine new members will be admitted to Blue Key, National Honor Fraternity, at the Chapter's annual initiation-installation banquet tomorrow at the Tower Cafe at 7 P.M.

The executive committee of Cardinal Key, National Women's Honor Sorority, has also been invited to the banquet. Guest speaker will be Father Scully of the San Luis Obispo Mission.

Next year's officers, elected at the last meeting, will be installed. The new officers are Emil Saxberg, President; George Tilley, Vice-President; Leland Johnson, Secretary-Treasurer; Al Pease, Corresponding Secretary; and Don Johnson, Alumni Secretary.

Members for Blue Key are objectively chosen for their outstanding activity and academic records and are dedicated to service in the betterment of the college and community. Leadership ability is one of the requisites of prospective members.

Men to be formally initiated are Frank Bryant, Jim Clark, Jim Grundman, Bob Jasper, Dan Lilly, white, George Mayb's, Chuck Thronson, Edwin Naylor and Dick Warner.

President's Review Slated for June 2

President Julian McPhee will review the ROTC Cadet Corps on the football field during college hour on June 2, Colonel Wilford E. H. Voehl of the Military Science and Tactics Department announced today.

McPhee will present the President's Trophy to the outstanding company. Awards also will go to the outstanding platoon and the outstanding squad. Numerous individual medals and awards will be presented for leadership, character, military bearing, and academic excellence.

Pat Chambers, ROTC Queen, and her attendants, will be on hand to assist in the ceremony.

Conservationist Talks At Crops Club Banquet

Fred W. Herbert, Assistant State Conservationist with the Soil Conservation Service, Berkeley, spoke at the annual Crops Club banquet sponsored by students majoring in field, fruit and truck crops.

The banquet was held at the Breakers Cafe in Morro Bay Saturday at 7:30 P.M., according to Adviser William Troutner, Head of the Crops Department.

Student chairman for the banquet was James McElaine.

Fencers Foil Santa Barbara

Cal Poly's Fencing team defeated the University of California at Santa Barbara in team foil competition recently. It marked the first actual team competition in fencing between the two schools.

Poly Hosts Angus Day Saturday

Cal Poly will host an Aberdeen Angus Field day Saturday, May 21, for all interested students, commercial and purebred breeders and high school agriculture classes.

Lyman Hemmion, Animal Husbandry Department Head, said this is the first time the Aberdeen Angus Breeders Association has held a field day of this type on campus.

The field day will start at 10:30 A.M. with a coffee hour and inspection of agriculture classroom and lab facilities. There will be a tour of the livestock area and campus followed by a luncheon at Poly Grove.

Roy Harris and Tom Meyer, Animal Husbandry instructors, will give a carcass and cutting demonstration in the Ag. Engineering Building, Room 182 at 1 P.M.

A livestock program discussing breeding herd management, general outline of breed characteris-

tics, and the use of Aberdeen Angus Herd Improvement Record program will be held at the judging pavilion at 2:30 P.M. William S. Roche, Western representative of the AABA and Ken Gross, Secretary of the Pacific State AABA will be officiating this portion of the program along with the staff members of the AH department.

The Aberdeen Angus Field Day is being sponsored by the Southern California-Aberdeen Angus Association and the Cal Poly Animal Husbandry Department.

Home Concert Discs On Sale All Week

"There are only a limited number of Home Concert records left," Music Department officials said.

Five hundred records taken directly from Home Concert and 250 specialty records are now on sale. Prices are \$3.50 and \$2.50, respectively. The discs will be sold near the campus post office and outside of El Corral.

Harold P. Davidson, Head of the Music Department, says, "These are by far the best recordings we have ever put out. The Home Concert record has over 40 minutes of listening enjoyment." It features Glee Club selections, "O Bone Jeau," Viva Tutti," and a combined number with the Women's Glee; Meridith Wilson's, "You and I."

On side two the Collegians swing out with "Medium Rare," "Brown's Little Jug," Stan Kenton's "Artistry Jumps," and other favorites.

The specialty record features the Collegiate Quartet, the Majors and Minors, the Women's Glee, Men's Glee, and the Collegians.

Homecoming Theme Contest Extended One More Week

"The Homecoming theme contest will last one more week," announces Homecoming Chairman Jim Evans.

The theme contest is designed to stimulate interest in Homecoming and also to depict the best possible theme. A perpetual plaque with an engraving of the name of the winning club or living group will be awarded for the winning theme.

Individuals may submit themes but they must represent a living group or club of their choice. The contest will end Friday, May 20, at 1 P.M. Entries are to be turned in to the Student Body Office. The winning theme will be chosen May 23.

Seniors Urged To Participate

All graduating seniors are encouraged to participate in the Commencement exercises to be held in the stadium Saturday, June 11, at 2 P.M., according to Dean of Admissions, C. Paul Winner.

"Individuals unable to attend should notify the Recorder's Office at the earliest possible date. Diplomas for those unable to attend the exercises will be mailed as soon as possible after Commencement," says Winner.

Important Meeting Slated Thursday For Senior Class

"Thursday, May 19, marks the date for one of the most important meetings of the Senior Class," says President Robert Yount.

Nomination of officers will take place, a discussion of Senior Week activities and pertinent information regarding graduation will be handed out.

Senior Week activities will include: — June 5, Pushing Hubby Through Ceremonies to be held on the Library Patio at 2 P.M. The traditional tree planting and plaque laying will be at 12 noon on June 8. Baccalaureate is scheduled for 2 P.M. in the Air Conditioning Auditorium on June 10. The Veterans' Memorial Building will be the scene of the senior ball to be held from 9 P.M. to 1 A.M. on June 10. The senior breakfast will be on June 11 in the Veterans' Memorial Building at 8 A.M.

Commencement will be at 2 P.M. in the football stadium followed by a post commencement reception at 4 P.M. on the Library Patio.

Senior Officers for the 1959-60 period were President, Robert J. Yount; Vice President, Joe W. Cotchett; Secretary, Mary Ann Tomasi; Treasurer, John D. Isaac; SAC Representative, Richard Abrams and Advisor, Dr. La Verne Buey.

Parking Tickets Average 40 a Day

As many as 150 parking tickets have been issued in a single day by Cal Poly's Security Officers, according to George Cockriel, Chief of Security.

"The average amount of tickets given throughout the year are about 40 per day, with the highest number given out during Fall Quarter," says Cockriel. Each of these tickets cost the offender approximately \$1 which eventually goes into the Student Body fund.

Cockriel says the campus parking offender has no opportunity to "plead his case," but if he feels he is not guilty he may discuss it with the college business manager.

Says Cockriel, "I realize that parking on campus for 8000 cars is a problem. Reserve parking was tried for faculty members during fall quarter and later abandoned by the Parking Committee because such an arrangement was not possible for student parking."

"The parking situation should ease considerably next fall," continues the chief officer, "Each dormitory resident will get a parking permit in his dormitory lot as a part of his room rental. But, 'Pay for Parking' will still be with us next year."

AH Juniors To Plan Projects

A meeting of all junior students in Animal Husbandry who expect to graduate next year will take place tomorrow in AGSS 105 at 4 P.M.

The purpose of the gathering is to formulate and make plans on senior projects.

Lit Magazine Offers Poetry, Stories By Student Authors

By Art Vinsel

The campus literary magazine, Poly Syllables, will go on sale soon, according to Distribution Manager Gerry Ellis.

"The magazine has doubled in size over last year's edition," says Ellis. It is tentatively scheduled to go on sale during the week of May 23-27.

Among the contributions to the 40-page magazine are such thought-provoking articles as "Will You Speak A Little Louder, Please," by Bruce Buttschach, Editor-in-Chief, a senior in Social Science from San Luis Obispo. "Discipline on Dying," by Stan Langenbeck, sophomore Business major from Santa Maria, is a biting satire on contemporary values. Jim Benson, junior Social Science major also of San Luis Obispo, has turned out an ironic bit of humor called "Nigger Man," a parody on our senseless racial prejudices.

Turning to lighter material, sophomore Farm Management major C. W. Mixon's "Driving for Fun and Profit," and "Freshman Adaption to Group Living," by Alan Marks, a former freshman Mechanical Engineering major, will be well received.

The poetry section draws on the talent of Margaret Dietrich, senior English major of San Luis Obispo, with "Summer," and "So Well We Have Forgotten."

"Virtue" and "The Ninth Hour," by Fresno English major Carol Ann Rizzo adds a touch of poignancy.

Emory Morris

Graduation Speaker Is Foundation Head

Cal Poly's commencement speaker this year will be Emory W. Morris, President and General Manager of the Kellogg Foundation.

Dr. Morris, a member of Delta Sigma Phi, Delta Sigma Delta and Omicron Kappa Upsilon Fraternities, was born in Nashville, Mich., in 1905.

He received his Doctor of Dentistry degree at the University of Michigan and has received honorary degrees from Tufts College, Michigan State University and Loyola University.

Morris became engaged in a private oral surgery practice in Battle Creek, Mich., from 1928-33 and became associated with the Kellogg Foundation at that time. He has been president and general manager of the foundation since 1948 and a trustee since 1956. He is also president of Atlas Properties and a director of the Kellogg Company.

Tau Sigma Lab Offers Help in Any Subject

The Tau Sigma free tutoring lab is open every Tuesday, Wednesday, and Thursday from 7 to 9 P.M. in Room 8 of the Electrical Engineering Building.

Tau Sigma is an honorary engineering fraternity composed of junior and senior students in all departments of the engineering division. The tutoring lab is staffed by four students each night of operation.

Students of all majors are encouraged by the fraternity to take advantage of the facility which claims to offer assistance in fields from engineering, physics and mathematics to advice to the lovelorn.

Notes from College Union

The culmination of College Union Week will be a smorgasbord banquet for all active members of CU committees and board members Sunday, May 22, in the Harvest Room of the South Cafeteria beginning at 6:30 P.M. President Julius McPhee is the honored guest and speaker.

Social Committee is planning a mysterious event Friday afternoon in the gymnasium patio. Word is that they can't afford to accommo-

date everyone, so they are catering to only those who can figure out the real title of the event by the "phony" one, which is "Music to Turn Cranks By." It is said that this is a sequel to last spring's similar affair, "Music to Slip Older By."

The outdoor concert will offer jazz by a brand new group composed of Cal Poly band members. A Latin-American combo directed by Luis Cisneros will also entertain.

Mein Kempf

By DAVE KEMPF

If you happen to have 10,000 bottles without caps, Duke Hill has a remedy. He has 10,000 caps without bottles. The jovial El Corral manager found them in his inventory and is now seeking a means for peddling them. He says he's open for suggestions.

— *mein kempf* —
We hesitate to delve into politics, but have made an astounding observation. Apparently presidential candidate Senator Jack Kennedy doesn't have time to watch television, or he'd have that "Vitalis look" by now.

— *mein kempf* —
Striving to get more room for news coverage in El Mustang, the Board of Publications submitted a budget for next year calling for 40 per cent advertising. That's a 10 per cent reduction from the past when El Mustang was supposed to average 50 per cent. Then, the money men decided they needed the cash to finance other projects here and there, so we're back up to 45. So, if you have a gripe about the ads, tell it to the guys holding the purse strings.

Mustangs Drop League Trio To Finish Season

Though by tradition an unlucky day, Friday the thirteenth saw the San Diego State Aztecs get all the breaks in their 5-4 nipping of Coach Bill Hicks' Mustang eleven on the home diamond. Poly's Jim Newkirk faced Aztec Larry Thompson in a scoreless mound duel which lasted for eight frames. In the ninth stanza the Aztecs brought in 5 runs, while Cal Poly could manage only four.

In Saturday's double-header with Long Beach State's Forty-Niners,

Cal Poly dropped the opening contest by a score of 6-5, then were blanked 3-0.

In the initial game, Mustang Ted Tollner gave up one run in the first inning. The Mustangs went ahead 4-3 in the third frame, holding that lead until the sixth inning.

Poly's Brad McFadden hurled in the second game of the day, giving

up three runs, while Long Beach's Joe Florentino held Poly scoreless.

CONGRATULATIONS ... are bestowed upon Mustang 1500 meter swim specialist, Jack Adam (left) by Gene Lens and Coach Dick Anderson, upon receiving news that Adam was selected as All-American by the College Coaches Swimming Association last week. Lens received the honor in 1958-59.

Sportshorts

Though the Mustang baseball squad finished the current season with a "less than spectacular" record a glance at the Jerry Linell coached Freshman Colt squad's current season record might prove interesting. The Colts won 13 of 16 games, dropping the trio of contests by only one run. In the hitting department, Colt third baseman Jerry Williams, brother of Mustang first baseman, Bob, belted the ball at a .478 clip to lead the parade while Bob Bernstein, who managed to sneak in "bit parts" with the Mustangs, boasted a .414 average. Williams had 21 RBI's, two home runs, and two triples, while Bernstein had 14 RBI's, three homers and three triples.

While on the subject of baseball, the Women's Athletic Association's Softball League, featuring a defensive-minded aggregation called the Heron Hustlers, is currently in the fourth week of play. Current standings find the Hustlers in a three-way tie with the Boysen Bombers and the Chase Chasers in the five team loop. All three squads have identical 2-1 records.

Tonight's action will see the Hustlers meet Jespersen, while Chase meets Bayles House. Game-time is scheduled for 5:30 p.m. on the softball field adjacent to the Mustang track.

Check the smile on swimming coach Dick Anderson's countenance. His squad just finished a most successful season, emerging undefeated in dual competition at the end of the season.

Questionnaire Reveals Feeling of Students on Cheating at Poly

by Drexel Richardson

(Editor's note: This article is the first in a series of three dealing with the cheating situation at Cal Poly. We are not attempting to draw positive conclusions, only to present the situation as it exists on campus.)

"Cheating," according to the Cal Poly Counseling Center, "is a symptom of social insecurity, a defensive act by a person who feels unequal to a given situation. It is rationalized by deciding that the situation is socially unjust. It is usually a question of losing status, not a question of losing technical knowledge or skill—if one really has it."

Recently, a questionnaire was circulated among what is hoped to be a representative group of Cal Poly students. It dealt with the problem of cheating at Cal Poly on a divisional breakdown. While it is admitted that for many reasons the written answers to the questionnaire are inconclusive, the combination of written and verbal answers expressed give an adequate picture of what the Cal Poly students want and expects during exams.

First, the average student wants a shift of responsibility to the instructor concerning knowledge of tests that are to be given to more than one class.

"I don't want a monkey on my back when I walk out of the classroom," said one engineering upper-classman. "If a buddy asks me what the test will cover, I want to be able to say, 'I don't know. Your test will be different.'"

An engineering instructor stated, "Most of our students are too busy to cheat. We do not give them

many opportunities to cheat and the tests are changed frequently. If there is any collusion it's not important."

Many students want a file of old tests made available in the library. They feel that it is impossible to absorb all the material, and these tests would give them an insight into what the instructor considers most valuable.

"I don't consider looking at old tests as cheating," an agricultural student said. "I think they should be available to anyone that wants to see them. We should get different questions each time, anyhow."

The question, "Do you ever cheat?" was usually answered by "seldom" or "never" although most

students admitted knowing several students that did cheat.

Agricultural students who were questioned generally felt that the use of cribs or "sones" was the most prevalent form of cheating. The engineering and arts and science students who were questioned felt that copying answers in class took first place.

Harold Hayes, Dean of the College, said, "Cheating exists to some degree in any college, but we do not actually know that it is a serious problem at Cal Poly. Charles Davis, head of the Mechanical Engineering Department, is chairman of a committee that is investigating the testing system at Cal Poly. This would

include cheating.

Davis reported that the committee was formed to examine student and staff attitudes toward the whole examination question. There are three staff members and three student members on the committee. The student members are Ruth Duthie, Home Economics; Leo Scheuber, Farm Management and Dick Warner, Electronic Engineering. The other staff members are Dr. Hewitt Wight, Physical

Science, and Dr. La Verne Buey, Animal Husbandry.

"We have had only one meeting so far," Davis said, "and don't have any pronouncements yet. We have looked over the situation starting with last quarter's final exams and soon expect to have some answers. However, it may be more than just a problem of cheating. Maybe Cal Poly's program of formal midterms and finals is wrong."

YOURS?

These are the silver wings of a U. S. Air Force Navigator. As a flying officer on the Aerospace team, he has chosen a career of leadership, a career that has meaning, rewards and executive opportunity.

The Aviation Cadet Program is the gateway to this career. To qualify for this rigorous and professional training, a high school diploma is required; however, two or more years of college are highly desirable. Upon completion of the program the Air Force encourages the new officer to earn his degree so he can better handle the responsibilities of his position. This includes full pay and allowances while taking off-duty courses under the Bootstrap education program. The Air Force will pay a substantial part of all tuition costs. After having attained enough credits so that he can complete course work and residence requirements for a college degree in 6 months or less, he is eligible to apply for temporary duty at the school of his choice.

If you think you have what it takes to earn the silver wings of an Air Force Navigator, see your local Air Force Recruiter. Ask him about Aviation Cadet Navigator training and the benefits which are available to a flying officer in the Air Force. Or fill in and mail this coupon.

There's a place for tomorrow's leaders on the Aerospace Team.
